About Me:

Public health researcher and engineer with 10 years of building programs in 7 countries, from water purification in Bangladesh to maternal health research in India and robotics clubs in Zimbabwe, training local teams to carry the work forward. Directed a $6M budget and 14-person team across three campuses at Carnegie Mellon, led a first-author BMJ Open paper, and helped raise $1.5M for a social enterprise. Now building Humanity in the Room, which brings engineers, founders, funders, and nonprofit leaders together on responsible AI for climate, health, education, and economic mobility.

Education:

Johns Hopkins , Master of Science in Public Health 2019
Global Disease Epidemiology Control, Humanitarian Health.

Carnegie Mellon University, Bachelor of Science 2016
Civil and Environmental, Biomedical Engineering

Certifications & Skills:

- PMI PMP
- Engineer in Training
- Incident Command
- BlueDot AGI
- FTSG Foresight
- AI Governance
- Monitoring & Evaluation

Experience:

Founder, Humanity in the Room | February 2026 - Present

- Bring engineers, funders, nonprofits, and social entrepreneurs together on responsible, safe, and sustainable AI for climate, health, education, and economic mobility, then send them out with frameworks and materials to act. Eight events, 2,000+ members.
- Consult for non-profits building AI policy and governance strategy, writing educational curriculum for underserved populations, building frameworks, and hosting workshops.

Director of Business Innovation, Carnegie Mellon | October 2019 - Present

- **AI Governance & Implementation:** Directed continuous AI tool evaluation processes: monitored emerging releases, initiated vendor outreach, structured competitive bids, and ran employee pilots against a standardized rubric assessing capability, ethics, and organizational fit. Managed compliance challenges including rolling back tools as pricing shifted from subsidized pilots to enterprise contracts.
- **Program Management:** Managed a $6M annual budget and team using Asana, Notion, and Snowflake. Wrote program charters, RACIs, risk registers, and project briefs across multi-stakeholder initiatives spanning global campuses.
- **Data Systems:** Built Institutional Data Research program, designing data-driven decision systems, tracking KPIs across stakeholder initiatives using Tableau/Power BI.
- **Environmental Sustainability and DEIB:** Led the institution to become the first university in MENA to achieve green certification by chairing DEIB & Ecocampus committees, designing climate KPIs and real-time dashboards, and running carbon offset and waste management programs aligned to UN SDGs.
- **Developing Global Citizens:** Taught 500+ students through innovation studios, experiential learning, creating entrepreneurship strategy for pressing problems

Research Data Analyst, Johns Hopkins School of Public Health | 2018 – 2020

- Produced funder reports and translated complex research findings into actionable recommendations for program and policy decisions across six grant portfolios, maintaining weekly reporting cadences across four institutional partnerships.
- Food for the Hungry: Supervised field data collection for a 500-household USAID WASH study in the DRC, training 20 field and lab assistants.
- Center for Humanitarian Health: Researched institutional preparedness and response during infectious disease outbreaks to strengthen system resilience.
- Yale Child Study Center: Analyzed mixed-methods surveys funded by Dubai Cares on early childhood education access in global emergencies.
- Global mHealth Initiative: Designed and validated a phone survey tool for a 5,000-woman Gates impact evaluation in India using iterative cognitive interviews.

Product Engineer and Microbiologist, Folia Water | 2015 - 2017

- Transitioned from nonprofit to social enterprise, raising $1.5M through grants, VC pitches. Built supply chain infrastructure in Bangladesh and South Africa. Designed field pilots and M&E frameworks to measure health impact.

Selected Leadership

- AI Ethics Fellow, Globethics Emerging Leaders in Ethical AI Governance | 2026
- Zimbabwe Lead, S.Y.STEM Coalition | September 2021 - 2025
- City Lead, Women and Climate | 2022 - 2025
- Director of Special Projects Board Member, Empowr | 2021 - 2025
- Board Member, Energize STEM | 2022 - 2023
- Creator, Mindfulness Room | 2013 - Present
